

CASE STUDY

Southern General Hospital - Glasgow

Client:	Southern General Hospital
Location:	Glasgow, Scotland
Commencement:	December 2004
Length of contract:	16-20 weeks
Project type:	Laundry

Overview

This project was for the linking together of a number of Glasgow Hospitals in terms of the provision of laundry services through the installation of all new equipment into an existing warehouse. Working closely with Jensen UK & the Primary Care Trust Clay & Abbott worked on the design & build areas as well as the sizing & selection of items of plant along with its supply & installation all within a tight timeframe.
